**SUBJECT** : INSPECTION REPORT A & J LUMBER DEALER WOOD  
PRODUCT MANUFACTURING

**DATE** : September 10, 2024

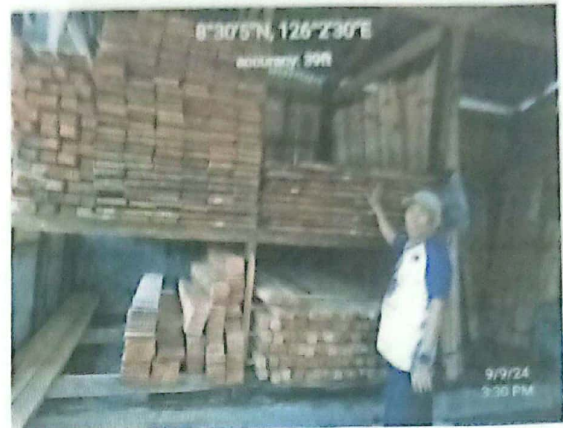

Please be informed that on September 09, 2024, an inspection was conducted at the lumber dealer A & J WOOD PRODUCT MANUFACTURING establishment owned by April May T. Piala, located at Purok 2, Bahi, Barobo, Surigao del Sur, for the renewal of their permit. During the inspection, we found that the stockyard still contained previous stocks from last year, consisting of planted species of lumber, such as falcata and mangium, in various dimensions, with an estimated volume of 3,000 board feet, more or less, cut by a band saw. Additionally, I note that they have proper waste segregation in place.

For your information and records, geotagged pictures are attached.
